

The Earth Machine Compost Bin

Leaves, grass, and kitchen waste represent over 30% of household trash. Composting these materials helps to reduce trash volume and provide soil nutrients.

Product Specifications

Made from a UV resistant polyethylene with 50% recycled content. Easy to use twist-lock lid designed to control ventilation and keep animals out. Easily assembled without tools. Dimensions are 32" in diameter x 32" tall with volume of 80 gallons. Odor free. Ten year manufacturer's warranty. Packaged with assembly instructions and "Home Composting Made Easy" booklet. Visit <http://earthmachine.com> for more details.

The Town of Cumberland is offering compost bins for resident at \$39 each (suggested retail \$80). Bins will be available for customer pickup at the Public Works Facility, Drowne Road. For more information, call 829-2220.
